Dry Straits

Looks Good

The matter of the Dry Strait Channel is looking brighter as the time advances and that the project will be surveyed this summer is now assured. Mr. Matheson, who is taking a very decided interest and working for the channel, is in receipt of a letter from Delegate Wickersham, in which is inclosed a copy of the River and Harbor Bill as reported by the House Committee on Rivers and Harbors which shows the manner in which the Dry Strait item is included in the bill. On page 38 of the Bill is a very interesting paragraph which reads, "The Secretary of War is hereby authorized and directed to cause preliminary examinations and surveys to be made at the following named localities, and a sufficient sum to pay cost thereof may be allotted from the amount provided in this section:" after which follows a list of the places to be surveyed the coming year and on the list on page 51, reads Dry Straits, Alaska.

The government has showed an interest in this matter and now it is up to the people of Wrangell and the rest of Southeastern Alaska, to show them how bad this is needed. We have a very able co-worker in the person of Mr. Wickersham, so let us all get in and boost and help the Chamber of Commerce in their endeavor to better the condi-

tions in Alaska and to make a better and greater Wrangell.

Oldest Citizen

On Sick List

John Finlayson has been on the sick list during the past week. Much concern is felt for Mr. Finlayson on account of his advanced age, being without doubt the oldest man in Alaska having recently passed the 102 mark, and has always been a hale and hearty man, going about with the ability of a man many years younger.

City of Seattle

Looses Propeller

While the steamship City of Seattle was at Skagway Saturday her commander, Capt. Thomas Johnson, beached the vessel for six hours, for the purpose of putting on a new propeller, the vessel having dropped a blade on her trip North.

The repair took but a short time and the vessel was floated on the next tide.

Mrs. Paul Stoltz, a passenger on the Jefferson on her last trip south, stopped off at this place when the boat was in port and when the boat left she was found to be insane and was taken in charge by the authorities. She will be given a hearing this afternoon.

A.-B. Give

Entertainment

Camp Wrangell No. 28, Arctic Brotherhood, gave an entertainment and dance at the lodge rooms last night to the members and their friends.

A large crowd attended and a very enjoyable evening was spent. The first part of the evening was spent in playing cards after which the dancers held sway until supper was served and again after the supper until the wee hours. The evening was a decided success as an entertainment as can always be expected when the A.-B. take a hand.

Alaska Salmon Pack

Four Million Cases

According to the last reports the salmon pack for the past season is the largest ever packed in Alaska, being a total of four million cases. This is the largest on record and is considerable over the 1913 pack.

Chas. E. Bunnell

Fairbanks Judge

Washington, Jan. 6.—The appointment of Chas. E. Bunnell as U. S. District Judge for the Fairbanks District in Alaska was confirmed by the Senate last night.

Fats vs. Leans

Some Game

The way that dull care got it in the neck last Saturday night at the Riuk was sure good. The affair was the basket ball game between the Fats and the Leans. The game was for blood and ever since both sides have been claiming the victory so we don't dare say who won the game, although the Leans threw two baskets and the Fats only one.

The game was better than any circus that ever hit the road, and was a scream from the start to the finish although it turned out to be more of a foot ball game than basket ball, but all the same there never was as many laughs in any half hour before as was crowded into that and everyone went home feeling that they had received their money's worth and then some.

The line up looked so good to Capt. Nord, of the Jefferson, that he tied up that vessel here so as to attend the affair, and as he left he stated that it certainly was worth it.

To those who did not see the game, just read the line up and imagine Johnnie Grant dressed up as a clown, and you have the game.

Home Talent

At Photoshow

One of the prettiest little hits of the season in the show line was pulled off last Saturday and Sunday evenings at the Wrangell Photoshow when eight Wrangell children appeared in a one act school burlesque entitled "The Village School". The act was put on under the supervision of Messrs. Woodworth and Purcell. The act was a decided hit and the children all bid fair to become some of the future favorites along that line.

Says Seward

Is The Place

SEATTLE, Jan. 6.—Major L. H. French, an Alaska mining man told friends here today that Seward had been definitely decided upon as the terminus of the Alaska government railway.

J. H. Wheeler was in receipt of a wire this afternoon from Dr. Dawes at Ketchikan stating that he was on the Admiral Watson and would stop off at Petersburg and for the good ship Tonic to meet him there to bring him to Wrangell. That's all the news only that Doc. is MARRIED so we will be laying for him when the Tonic gets back.

Mrs. C. Shurick Passes Away

Mrs. Carry Shurick, mother of Dr. Shurick, passed away at the home of Mr. and Mrs. Shurick at 11 A. M. last Wednesday morning after an illness lasting for nearly a year although it was not thought serious until the last few days.

The funeral service was held this morning, Rev. Clark presiding and the body of the deceased was laid to rest in the Red Men's Cemetery.

The deceased was born in Cincinnati, Ohio, in 1837 being 77 years of age. Mrs. Shurick came to Wrangell from Sherman, Texas, in Oct. 1912, and has made her home with her son here ever since. For the past year her health has been bad hardly leaving the house.

The deceased leaves besides Dr. Shurick here, one daughter residing at Kansas City to mourn her death.

The deceased has made many friends since coming to Wrangell and the whole community extends their sympathy to a man that has lost the best friend on earth, a mother.

Nearly all of the large papers of the cities have increased the cost of their papers from one to two cents. The reason for this is the big increase in the cost of white paper.

H. C. McLaughlin, manager of the gas engine department of the Fairbanks, Morse Engine Company, has been in Wrangell for the past two weeks testing and putting in shape the new engines at the Wrangell Electric Light & Power Co. plant. On examination he found that one of the engines had a small piston which accounts for much of the trouble with the lights since the new system has been in service. Mr. McLaughlin ordered a new one which should arrive on the first boat and then he will put them in good running shape.

Mr. McLaughlin left on the City of Seattle Tuesday night for Ketchikan on business for his company but will return on the first boat and finish his business here.

HOW A MOTOR "TALKS."

The Sympathy That May Come Between the Animate and Inanimate.

"One day my chauffeur was taken ill, and I drove myself in, left the car standing in a side street during the day, and drove home at night." I had a suburbanite. "Then, for the first time, I began to sense the feeling of sympathy or mutual sympathy, if such an expression may be permitted between animate and inanimate things. Between the machine and myself. Several trips by myself confirmed the sensation; then I bought another car for the family and now drive myself regularly in this one.

"I have often thought of the stories told by locomotive engineers in which their great engines are endowed with almost mental faculties. There are enough of them to fill a book, but I never considered them seriously until I began with this car. Sometimes the engine sings; sometimes it purrs. I know its 'sing' and its 'purr.' If anything is the matter with it it tells it in a language entirely intelligible to me. It responds to my lightest touch to all its functions, but once, and when his voice became grave, 'It refused to run into an unlighted ditch where I was trying to steer it. I looked for half an hour for the trouble with the steering apparatus, but could find nothing wrong.'—Suburban Life.

Fun In Space.

"I dreamed last night that I was present at a committee meeting of the sun, earth, moon and stars.

"I'm no coward," said the earth.

"No, but you have two great fears," said the sun hotly.

"And those are?"

"The hemispheres."

"You've forgotten the atmosphere," said the moon. And the comet, who had no business to be there, wagged his tail with joy.

A tin lake was still open on Jan. 1st.

The cableship Burnside is headed north.

The striped suits have been abolished at McNeils.

Frank Young, a prospector, is dead on the Chisana trail.

From October 4th to November 25th Iditarod got along without mail.

Santa Claus came to the town of Iditarod in a sleigh drawn by reindeer.

Rumor is again busy with the statement that Col. Goethals is to be asked to build the Alaska railroad.

John Muir, who recently died in California, was the discoverer of wonderful Muir glacier in Alaska.

Charles J. Jones, formerly traffic manager for the Alaska Steamship Company, is dead at San Francisco.

Dr. L. S. Keller, dentist and journalist of Skagway, has just celebrated the seventeenth anniversary of his arrival.

Editor Bushell, of the Ketchikan Miner, has just returned from a visit to the Sound, where he has been looking into things.

On December 31st the Alaska Steamship Company declared a 2 per cent dividend, which made a total of 8 per cent for the year 1914.

Seventy-five thousand feet of spruce lumber recently reached Puget sound from Ketchikan for shipment to New York via the Panama canal.

The department of education reports that the Eskimos of Alaska are now a civilized people, as a result of the introduction of the reindeer industry of the North.

It is expected that the report of the Alaska engineering commission on its surveys for a system of government railroads in Alaska will be ready about February 1.

The Royal Northwest mounted police expedition left Dawson on Jan. 1st for Fort McPherson and Herschel island, and may make a search for Explorer Stefansson.

Alaska salmon canners are now in hopes that soon the war correspondents will be writing that you can trace the march of the armies by the empty salmon cans.

George C. Hazelet, president of the Cordova chamber of commerce has gone down to Washington to observe what is being done about selecting a terminal for the Alaska railroad.

A sad story comes from Skagway of how one, Wilbur Story, fell on a dance floor on New Year's Eve and broke the bottle which he carried in his hip pocket, cutting a four inch gash in his afterparts.

As an instance of what may be done in the way of farming in Alaska, Governor Strong told the Seattle chamber of commerce of a man near Fairbanks who cultivated sixty acres and cleared \$15,000. Considering the popular notion that Alaska is all a land of snow and ice, this is calculated to make the Eastern farmer sit up and take notice.

A good show at the Wrangell Photoshow tonight.

W. G. Beattie was a passenger down from Juneau on the Jefferson.

Wm. Ferguson the well known knight of the grip was a Wrangell caller this week.

N. J. Svindseth returned on the Jefferson last Saturday from a short trip to Ketchikan.

Wm. Ryan arrived up on the City of Seattle last Sunday and is registered at the Wrangell Hotel.

There will be a dance at the Rink next Saturday evening after the show. Everyone invited and assured a good time.

W. C. Baird, W. Christensen and Wm. F. Ralback, of Seattle, were Wrangell passengers on the Jefferson last Saturday.

Eddie Calkins returned on the Jefferson from a trip to the states. Eddie fooled them all and did not bring back a better half.

Miss Lessie George, of Juneau, is spending a couple of weeks in Wrangell visiting her sister Mrs. Martin Bjorge.

Mrs. F. C. Purinton, wife of Manager Purinton of the Rink, arrived up from Ketchikan on the City of Seattle last Monday.

When in Ketchikan spend an evening at the "The Dream," the house that sets the PACE. All others try to copy.

C. W. Stockwell, representative of the Marshal-Wells Hardware Co. of Portland, was calling on Wrangell merchants this week.

Charlie Nelson will be a passenger south on the Princess May tonight bound for the states where he will spend the next few months having a good time.

Miss Anna Durkey of the Garnet Co. arrived up on one of the late boats from San Francisco where she has made arrangements to place the Wrangell garnets on sale at the coming fair.

The Ashlock Hydro Carbon Burner now ready to install in any house or boat, the greatest fuel saver ever invented.—St. Michael Trading Company.

Leo McCormack, manager of the St. Michael Trading Co. Dock, was a passenger south on the Seattle last Tuesday evening. Leo is taking a pleasure trip which will take him to the Eastern cities and expects to be away about six weeks.

According to a report our old friend Dr. Dawes has returned to Juneau during the past week, and as the rumor goes he has brought back a life partner. Anyway if it isn't so it ought to be and we extend congratulations.

John Hagstrom came in from the Garnet Camp the first of the week and will take up his residence in his new home. John says Wrangell looks to good to him to leave and that he is going to stay this time.

Mr. and Mrs. Arnt Sorset, and Mr. and Mrs. Samuel Cunningham will be passengers for the south on the Princess May bound for California and way points on a six weeks pleasure trip. During their sojourn in the south they will take in the fairs at San Diego and San Francisco.

John D. McKinnon was a Wrangell passenger on the Princess May last Tuesday morning returning here to look after his property here. Mr. McKinnon has spent the past summer in the employ of the Great Northern Railroad in the capacity of surveyor, and will spend the rest of the winter here.

The S. S. Kiev, of the Russian Volunteer fleet, which was to have been the second steamer of the new service from Puget Sound to Vladivostock, has had an accident and was forced to put back to a Japanese port for repairs. The liner Tambov will take the place of the Kiev.

Northwestern Being Remodeled

The Alaska Steamship Co. has awarded the contract for alterations to the Steamship Northwestern to the Seattle Construction & Dry Dock Co. The vessel is now at the local plant where the work is being pushed so that she will be in readiness to re-enter the spring trade in Alaska.

Chief among the alterations is the conversion of the vessel from coal to oil as fuel. The Dahl oil burning system will be installed, which will have the effect of somewhat speeding the vessel up and creating some additional cargo space. While undergoing this work the awning deck will be extended from the dining saloon forward, upon both sides, which will give a covered deck and promenade similar to the Alameda and Mariposa. The interior of the steamship will be refurnished and painted, making her accommodations equal in all respects to the Mariposa and Alameda.

These three vessels will alternate on the Southwestern Alaska run via the Inside passage, on the same general arrangement as last season.

Big Liner Changes Hands

The Empress of India, formerly the crack liner of the Canadian Pacific's trans-Pacific service, has been purchased by the Gaekwar of Baroda, the richest and most prominent prince of the Indian Empire. He will use the ship as a hospital and supply vessel for the Indian troops now fighting side by side with the allies in the great European war. The Empress of China, a sister ship, was lost a few years ago on the Japanese coast and the Empress of Japan is now the only one of the three left in the service.

Watch for the new feature in the Sentinel next week.

NOTICE OF HEARING ON FINAL ACCOUNT AND PETITION FOR ADMINISTRATRIX'S FINAL SETTLEMENT.

In the Probate Court for the Territory of Alaska, Division Number One, Wrangell Commissioner's Precinct.

In the matter of the Estate of THOMAS A. WILLSON, Deceased.

Notice is hereby given that I, Mary A. Willson, as Administratrix of the Estate of Thomas A. Willson, deceased, have this day rendered and presented for final settlement, and file in this Court my Final Account of my administration of said Estate, and my petition for the distribution of the residue of said Estate to the persons entitled thereto, and that the above entitled Court has by order appointed the 7th day of December 1914, at 10 o'clock in the forenoon, and the Court Room of the United States Commissioner at Wrangell in the Territory, Division and Precinct aforesaid as the time and place for the hearing on the application for the allowances and the final and judicial settlement of said Final Account, and for the approval of my acts and proceedings as Administratrix herein; and that said Court has appointed the said time and place for the hearing upon said petition for final distribution and settlement; that all persons interested in said estate are hereby notified to then and there appear and show cause, if any they have, why the said Final Account and all my acts and proceedings as Administratrix as aforesaid should not be approved and allowed and settled, and why said petition should not be granted as prayed.

Dated at Baltimore, Maryland, this 18th day of September 1914.

MARY A. WILLSON,
Administratrix of the Estate of Thomas A. Willson, Deceased.

Printing Point Does Not Bob Up and Down

In an L. C. Smith & Bros. Typewriter the point on the paper which is to receive the type impression is stationary at the instant the type hits. The carriage does not bob up and down when the shift is made to write capitals.

Why?

Because the type is shifted—not the carriage.

The only movement of the carriage is back and forth on its closely adjusted ball bearing runways—and this does not take place while the print is being made. There is no lifting of the carriage.

This is one reason why L. C. Smith & Bros. typewriting is free from blurs and every letter in the right place.

Mrs. Blumer—We must have the
duills to dinner. We owe them one.

Blumer—Of course. We passed an
awful dull evening there, and it is
nothing more than right that they
should pass one here.—Brooklyn Life.

WINCHESTER

.401 Caliber

Self-Loading Rifle.

This new Winchester is reloaded by recoil,
the repeating as well as the firing mechan-
ism being under control of the trigger
finger. A bullet fired from it strikes a blow
of 2038 pounds—force enough to topple
over the biggest game—penetration enough
to reach the innermost vital spot. Tho
wonderful in operation and powerful in
execution, this rifle is neither complicated
in construction nor cumbersome to handle.

It Hits Like The Hammer Of Thor.

FUNSTEN PAYS CASH FOR FURS

You get the highest prices and the quickest returns when you ship
your furs to Funsten. Coon, mink, skunk, muskrat, marten, fox,
wolf, lynx and other furs are valuable. We receive and sell more
furs direct from trapping sections than any house in the world.
The biggest American and foreign buyers are represented at our
regular sales, which run into millions of dollars yearly. The fierce
competition among buyers at our sales enables us to get higher
prices than anyone else. That's why we can send you the most
money for your furs, and send it quicker.

Big Money in Trapping While work on the farm is
good and profitable, we furnish trapping outfits at cost. Traps, baits, etc.,
that make trapping easy. Write today for Catalog No. 1 and full particulars.
We send our New Trappers Guide, Fur Market Reports and Shipping Free.
Write for our money order, for this is your business opportunity.
